## PROPERTY TAX ABATEMENT PROGRAM OVERVIEW AND GUIDELINE SCORING SYSTEM

### **Program Description**

Property tax abatement in Indiana is authorized under Indiana Code 6-1.1-12.1 in the form of deductions from assessed valuation. Any property owner in a locally-designated Economic Revitalization Area (ERA) who makes improvements to the real property or installs eligible new or used personal property (such as manufacturing equipment and certain research and development equipment) is eligible for property tax abatement. Land does not qualify for abatement. .

### **Scoring System**

The City of Terre Haute utilizes a scoring system as a guide for determining the appropriate length of time (one of ten time periods can be used) of the property tax abatement(s) being sought for a proposed project. Additional information on the scoring system can be found elsewhere in this document.

### **Indiana Real Property Assessment Standard**

A property's assessed value is the basis for property taxes. Annually, local assessing officials assess the value of real property on March 1 based on market value in use of the property. Property owners can estimate the property taxes for new construction by adding the cost of the land and improvements together and multiplying by the tax rate. For real property tax abatement calculation purposes, the cost of the improvements (the land itself cannot be abated) would be utilized as the real property assessed value. This real property assessment value would then be phased-in over one of ten time periods.

### **Indiana Personal Property Assessment Standard**

Personal property values are assessed March 1 of every year and are self reported by property owners to township assessors using prescribed state forms. Generally speaking, personal property taxes are levied against all tangible property other than real property. Numerous deductions can be applied to personal property. Of course, the value of personal property over time will be subject to depreciation, therefore, applicants are advised to seek the counsel of a financial advisor to determine which asset pool(s) (see following table) would be applicable to their particular project.

Additional information on the State of Indiana's property tax assessment system can be found at the Indiana Department of Local Government Finance website at [www.in.gov/dlgf](http://www.in.gov/dlgf).

9			16%	25%
10			12%	21%

**Note:** The total valuation of a taxpayer's assessable depreciable personal property in a single taxing district cannot be less than 30% of the adjusted cost of all such property of the taxpayer.

### Real Property Abatement Calculation

Real property abatement is a declining percentage of the increase in assessed value of the improvement based on one of the ten following time periods and percentages as determined by the City Council:

Year	10 Year	9 Year	8 Year	7 Year	6 Year	5 Year	4 Year	3 Year	2 Year	1 Year
1	100%	100%	100%	100%	100%	100%	100%	100%	100%	100%

### Depreciable Personal Property Abatement Calculation

Depreciable personal property tax abatement is a declining percentage of the assessed value of the newly installed manufacturing (and certain research/development and warehousing/distribution equipment), based upon one of the ten time periods and percentages as determined by the City Council:

Year	10 Year	9 Year	8 Year	7 Year	6 Year	5 Year	4 Year	3 Year	2 Year	1 Year
1	100%	100%	100%	100%	100%	100%	100%	100%	100%	100%

### **Project Eligibility Criteria**

Decisions to designate areas as Economic Revitalization Areas are determined by the City Council. The City Council utilizes a numerical scoring system as a guide for designating areas as Economic Revitalization Areas within the corporate limits of the City of Terre Haute. Each project is scored on its individual merits. The points system that is utilized to evaluate projects considers the degree of revitalization that the project will have on the surrounding area as well as other facts such as employment (created and/or retained), investment, utilization of local construction firms and labor and so forth.

The following projects will be considered by the Terre Haute City Council for property tax abatement. The real property guideline project scoring criteria can be found in the section entitled "City of Terre Haute Real Property Tax Abatement Guideline Scoring Criteria" on page 8. For projects seeking personal property tax abatement, the "City of Terre Haute Personal Property Tax Abatement Guideline Scoring Criteria" can be found on page 10.

**(A.) Manufacturing Project** – Local manufacturing projects, local manufacturing-related office structures and local manufacturing-related warehouses that create or preserve employment within the city limits are eligible for property tax abatement. In the case of manufacturing facilities that directly produce product (as well as manufacturing related-warehouses), both real and depreciable personal property are eligible. In the case of manufacturing-related office structures, only real property is eligible for abatement. Also, certain research and development equipment may qualify for depreciable personal property tax abatement.

**(B.) Non-Manufacturing Warehouse and Distribution Center Projects** – Warehouses and distribution centers not related to a local manufacturing facility may be eligible for both real and depreciable personal property tax abatement. To be eligible for property tax abatement, the facility must substantially serve markets beyond the Terre Haute metropolitan area.

**(C.) Office Space Development** – Office space developments within the city limits are eligible for real property abatement provided the project substantially serves markets beyond the Terre Haute metropolitan area.

**(D.) Historic Preservation** – Projects within the city limits that assist in the preservation of buildings of significant historical nature will be considered for real property abatement.
