Ineligible Projects

Projects will not be considered if a building permit has already been obtained or construction has been initiated. This is because the decision of the Council to designate the Economic Revitalization Area must be passed on the finding that the area is “undesirable for normal development”.

The City Council has the right to void the tax abatement designation awarded to a project if the project has not been initiated within twelve (12) months of the reconfirmation date of the tax abatement resolution, or if the actual use is different than that approved.

Tax abatement for the rehabilitation or development of real property is not eligible for the following types of facilities:

1. Private or commercial golf courses.
2. Country club.
3. Massage parlor.
4. Tennis club.
5. Skating facility (including roller skating, skateboarding or ice skating).
6. Racquet sport facility (including any handball or racquetball court).
7. Hot tub facility.
8. Suntan facility.
9. Racetrack.
10. Any facility the primary purpose of which is:
 - a. retail food and beverage service;
 - b. automobile sales or service; or
 - c. other retail
11. Residential.
12. A package liquor store that holds a liquor dealer's permit under IC 7.1-3-10 or any other entity that is required to operate under a license issued under IC 7.1. This subdivision does not apply to an applicant that:
 - (A) was eligible for tax abatement under this chapter before July 1, 1995;
 - (B) is described in IC 7.1-5-7-11; or
 - (C) operates a facility under:

PROPERTY TAX ABATMENT PROGRAM OVERVIEW AND GUIDELINE SCORING SYSTEM

Program Description

Property tax abatement in Indiana is authorized under Indiana Code 6-1.1-12.1 in the form of deductions from assessed valuation. Any property owner in a locally-designated Economic Revitalization Area (ERA) who makes improvements to the real property or installs eligible new or used personal property (such as manufacturing equipment and certain research and development equipment) is eligible for property tax abatement. Land does not qualify for abatement. .

Scoring System

The City of Terre Haute utilizes a scoring system as a guide for determining the appropriate length of time (one of ten time periods can be used) of the property tax abatement(s) being sought for a proposed project. Additional information on the scoring system can be found elsewhere in this document.

Indiana Real Property Assessment Standard

A property's assessed value is the basis for property taxes. Annually, local assessing officials assess the value of real property on March 1 based on market value in use of the property. Property owners can estimate the property taxes for new construction by adding the cost of the land and improvements together and multiplying by the tax rate. For real property tax abatement calculation purposes, the cost of the improvements (the land itself cannot be abated) would be utilized as the real property assessed value. This real property assessment value would then be phased-in over one of ten time periods.

Indiana Personal Property Assessment Standard

Personal property values are assessed March 1 of every year and are self reported by property owners to township assessors using prescribed state forms. Generally speaking, personal property taxes are levied against all tangible property other than real property. Numerous deductions can be applied to personal property. Of course, the value of personal property over time will be subject to depreciation, therefore, applicants are advised to seek the counsel of a financial advisor to determine which asset pool(s) (see following table) would be applicable to their particular project.

Additional information on the State of Indiana's property tax assessment system can be found at the Indiana Department of Local Government Finance website at www.in.gov/dlgf.

Project Eligibility Criteria

Decisions to designate areas as Economic Revitalization Areas are determined by the City Council. The City Council utilizes a numerical scoring system as a guide for designating areas as Economic Revitalization Areas within the corporate limits of the City of Terre Haute. Each project is scored on its individual merits. The points system that is utilized to evaluate projects considers the degree of revitalization that the project will have on the surrounding area as well as other facts such as employment (created and/or retained), investment, utilization of local construction firms and labor and so forth.

The following projects will be considered by the Terre Haute City Council for property tax abatement. The real property guideline project scoring criteria can be found in the section entitled "City of Terre Haute Real Property Tax Abatement Guideline Scoring Criteria" on page 8. For projects seeking personal property tax abatement, the "City of Terre Haute Personal Property Tax Abatement Guideline Scoring Criteria" can be found on page 10.

(A.) Manufacturing Project -- Local manufacturing projects, local manufacturing-related office structures and local manufacturing-related warehouses that create or preserve employment within the city limits are eligible for property tax abatement. In the case of manufacturing facilities that directly produce product (as well as manufacturing related-warehouses), both real and depreciable personal property are eligible. In the case of manufacturing-related office structures, only real property is eligible for abatement. Also, certain research and development equipment may qualify for depreciable personal property tax abatement.

(B.) Non-Manufacturing Warehouse and Distribution Center Projects -- Warehouses and distribution centers not related to a local manufacturing facility may be eligible for both real and depreciable personal property tax abatement. To be eligible for property tax abatement, the facility must substantially serve markets beyond the Terre Haute metropolitan area.

(C.) Office Space Development -- Office space developments within the city limits are eligible for real property abatement provided the project substantially serves markets beyond the Terre Haute metropolitan area.

(D.) Historic Preservation -- Projects within the city limits that assist in the preservation of buildings of significant historical nature will be considered for real property abatement.

FOR USE OF THE DESIGNATING BODY

We have reviewed our prior actions relating to the designation of this economic revitalization area and find that the applicant meets the general standards adopted in the resolution previously approved by this body. Said resolution, passed under IC 6-1.1-12.1-2.5, provides for the following limitations as authorized under IC 6-1.1-12.1-2.

A. The designated area has been limited to a period of time not to exceed 8 calendar years * (see below). The date this designation expires is N/A. NOTE: This question addresses whether the resolution contains an expiration date for the designated area.

1. Installation of new manufacturing equipment;
2. Installation of new research and development equipment;
3. Installation of new logistical distribution equipment.
4. Installation of new information technology equipment;
Yes/No checkboxes for each item, plus an enhanced abatement checkbox.

C. The amount of deduction applicable to new manufacturing equipment is limited to \$ N/A cost with an assessed value of \$ N/A. (One or both lines may be filled out to establish a limit, if desired.)

I. For a Statement of Benefits approved after June 30, 2013, did this designating body adopt an abatement schedule per IC 6-1.1-12.1-17? Yes/No. If yes, attach a copy of the abatement schedule to this form. If no, the designating body is required to establish an abatement schedule before the deduction can be determined.

Also we have reviewed the information contained in the statement of benefits and find that the estimates and expectations are reasonable and have determined that the totality of benefits is sufficient to justify the deduction described above.

Table with 3 columns: Signature/Title of authorized member, Telephone number, Date signed. Rows for George Azar and Michelle Edwards.

* If the designating body limits the time period during which an area is an economic revitalization area, that limitation does not limit the length of time a taxpayer is entitled to receive a deduction to a number of years that is less than the number of years designated under IC 6-1.1-12.1-17.

IC 6-1.1-12.1-17
